CONTENTS OF VOLUME 359

February 1985

PARKINGTON Helena C. Some properties of the circular myometrium of the sheep throughout pregnancy and during labour. 1

DUTIA M.B. & HUNTER M.J. The sagittal vestibulocollic reflex and its interaction with neck proprioceptive afferents in the decerebrate cat. 17

HARPER A.A. & LAWSON S.N. Conduction velocity is related to morphological cell type in rat dorsal root ganglion neurones. 31

HARPER A.A. & LAWSON S.N. Electrical properties of rat dorsal root ganglion neurones with different peripheral nerve conduction velocities. 47

HILLS B.A. Alveolar liquid lining: Langmuir method used to measure surface tension in bovine and canine lung extracts. 65

ELLIS D. & MACLEOD K.T. Sodium-dependent control of intracellular pH in Purkinje fibres of sheep heart. 81

DENIER VAN DER GON J.J., TER HAAR ROMENY B.M. & VAN ZUYLEN E.J. Behaviour of motor units of human arm muscles: differences between slow isometric contraction and relaxation. 107

KARLISH S.J.D. & STEIN W.D. Cation activation of the pig kidney sodium pump: transmembrane allosteric effects of sodium. 119

HAMMOND D.L., TYCE G.M. & YAKSH T.L. Efflux of 5-hydroxytryptamine and noradrenaline into spinal cord superfusates during stimulation of the rat medulla. 151

STUENKEL Edward L. Simultaneous monitoring of electrical and secretory activity in peptidergic neurosecretory terminals of the crab. 163

OHMORI Harunori Mechano-electrical transduction currents in isolated vestibular hair cells of the chick. 189

KOYANO K., KUBA K. & MINOTA S. Long-term potentiation of transmitter release induced by repetitive presynaptic activities in bull-frog sympathetic ganglia. 219

D'ALONZO Albert J. & GRINNELL Alan D. Profiles of evoked release along the length of frog motor nerve terminals. 235

BISTI S., CARMIGNOTO G., GALLI L. & MAFFEI L. Spatial-frequency characteristics of neurones of area 18 in the cat: dependence on the velocity of the visual stimulus. 259

ASHCROFT Frances M., HEINY Judith A. & VERGARA Julio Inward rectification in the transverse tubular system of frog skeletal muscle studied with potentiometric dyes. 269

FRIEDLANDER Michael J., MARTIN Kevan A.C. & VAHLE-HINZ Christiane The structure of the terminal arborizations of physiologically identified retinal ganglion cell Y axons in the kitten. 293

HAMMOND P. & MACKAY D.M. Influence of luminance gradient reversal on complex cells in feline striate cortex. 315

EHRENFELD J., GARCIA-ROMEU F. & HARVEY B.J. Electrogenic active proton pump in *Rana esculenta* skin and its role in sodium ion transport. 331

CLAFLIN Dennis R. & FAULKNER John A. Shortening velocity extrapolated to zero load and unloaded shortening velocity of whole rat skeletal muscle. 357

LEONARD B., MITCHELL J.H., MIZUNO M., RUBE N., SALTIN B. & SECHER N.H. Partial neuromuscular blockade and cardiovascular responses to static exercise in man. 365

MULLEN Kathy T. The contrast sensitivity of human colour vision to red–green and blue–yellow chromatic gratings. 381

SUZUKI Hikaru Electrical responses of smooth muscle cells of the rabbit ear artery to adenosine triphosphate. 401

TOFTS Paul & WRAY Susan Changes in brain phosphorus metabolites during the post-natal development of the rat. 417

FEDULOVA S.A., KOSTYUK P.G. & VESELOVSKY N.S. Two types of calcium channels in the somatic membrane of new-born rat dorsal root ganglion neurones. 431

FITZSIMONS J.T. & FULLER Louise M. Effects of angiotensin or carbachol on sodium intake and excretion in adrenalectomized or deoxycorticosterone-treated rats. 447

CLARK Wesley G., HOLDEMAN Michael & LIPTON J.M. Analysis of the antipyretic action of α-melanocyte-stimulating hormone in rabbits. 459

ITOH Takeo, KANMURA Yuichi & KURIYAMA Hirosi A23187 increases calcium permeability of store sites more than of surface membranes in the rabbit mesenteric artery. 467

IIJIMA Toshihiko, IRISAWA Hiroshi & KAMEYAMA Masaki Membrane currents and their modification by acetylcholine in isolated single atrial cells of the guinea-pig. 485

BRIGGS Clark A., BROWN Thomas H. & MCAFEE Donald A. Neurophysiology and pharmacology of long-term potentiation in the rat sympathetic ganglion. 503
